INDEPENDENT AUDITORS' REPORT

To the Shareholder of KGW Capital Corporation Westhampton Beach, New York

We have audited the accompanying balance sheets of KGW Capital Corporation as of December 31, 2007 and 2006, and the related statements of operations and changes in stockholder's equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of KGW Capital Corporation as of December 31, 2007 and 2006, and the results of its operations, changes in stockholder's equity and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the accompanying supplemental schedules, presented for purposes of additional analysis, is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2007 AND 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

KGW Capital Corporation (the "Company") was organized on January 19, 1994 under the laws of the State of Delaware. Since December 21, 1994 the Company has been in the business of acting as a registered broker-dealer.

Accounting method

Revenue is recognized when earned and expenses are recognized when they are incurred.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

income taxes

The Company has elected under Internal Revenue Code Section 1362(a) and under Section 660 of Article 22 of the New York State law to be taxed as a small business corporation whereby income is taxed directly to the stockholders. Therefore, no provision or benefit for income taxes has been included in these financial statements.

2. INVESTMENTS

Investments at December 31, 2007 consist of 2,500 shares of common stock of the NASDAQ Stock Market, Inc. (NASDAQ) acquired in a private placement issue and through the exercise of warrants which were also acquired in the private placement issue.

The stock is recorded at its fair market valuation

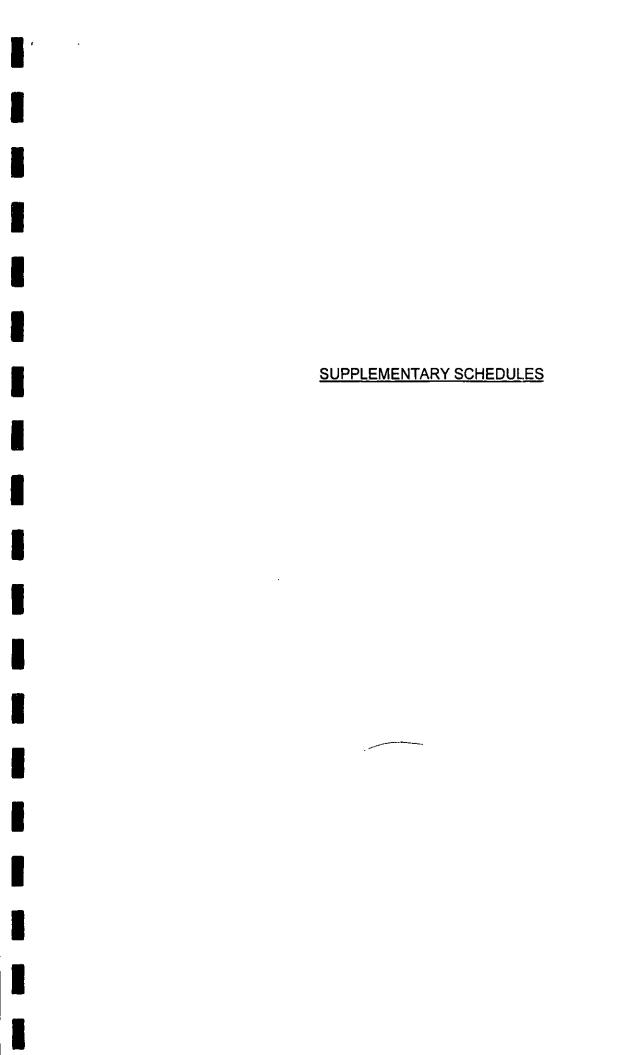

3. <u>NET CAPITAL REQUIREMENTS</u>

The Company is a registered broker-dealer in securities, is subject to the uniform Net Capital Rule (Rule 15c-1) of the Securities and Exchange Commission. Rule 15c3-3 requires the maintenance of a "minimum net capital" and prohibits the Company from engaging in any security transaction whenever its "aggregate indebtedness" exceeds fifteen times its "net capital", as defined. At December 31, 2007 and 2006 the Company had a net capital of \$170,116 and \$139,759 respectively, which exceeded required net capital by \$165,116 and \$134,759, respectively. The Company's net capital ratios were 0.17:1 and 0.020:1 for 2007 and 2006, respectively.

4. CONCENTRATIONS

Financial instruments which potentially subject the Company to a concentration of credit risk are money market accounts and checking accounts with major financial institutions. These financial institutions have strong credit ratings and management believes that credit risk related to those accounts are minimal.

Fee income was earned from two clients in 2007 and three clients in 2006.

COMPUTATION OF AGGREGATE INDEBTEDNESS AND NET CAPITAL

IN ACCORDANCE WITH RULE 15c3-1

OF THE SECURITIES AND EXCHANGE COMMISSION

	Years Ended December 31,	
	<u>2007</u>	<u>2006</u>
Aggregate indebtedness: Total liabilities from balance sheet	\$ 3,150	\$ 2,800
Net capital: Stockholder's equity from balance sheets	204,171	151,305
Haircuts: NASDAQ stock/warrants	(34,055)	(11,546)
NET CAPITAL	\$ 170,116	\$ 139,759
Computation of basic net capital requirement: Minimum net capital required (6-2/3% of aggregate indebtedness of \$3,150 and \$2,800, respectively)	\$ 210	\$ 187
Minimum dollar net capital requirement	5,000	5,000
Excess net capital	165,116	134,759
Excess net capital at 1,000%	\$ 169,801	\$ 139,479
Ratio: Aggregate indebtedness to net capital	.017:1	0.020:1

Note: There are no differences between the above computation and the computation of net capital as of December 31, 2007 and 2006 previously filed by KGW Capital Corporation on Form X-174A-5.

COMPUTATION FOR DETERMINATION OF RESERVE REQUIREMENTS PURSUANT TO RULE 15c3-3 YEAR ENDED DECEMBER 31, 2007

KGW Capital Corporation does not effect transactions for anyone defined as a customer under Rule 15c3-3. Accordingly, there are no items to report under the requirements of this rule.

-9-

To the Shareholder of KGW Capital Corporation:

In planning and performing our audit of the financial statements and supplemental schedules of KGW Capital Corporation (the "Company") for the year ended December 31, 2007, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debts) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications and comparisons.
- Recordation of differences required by rule 17a-13.
- 3. Complying with the requirements for prompt payment for securities under section 8 of the Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of controls and the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(q) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended solely for the information and use of the Shareholder, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

New York, New York February 8, 2008

from by Neu the keet
